Following a proposal submitted to NewSight Corporation (“NewSight”), Wireless Ronin Technologies, Inc. was authorized on February 26, 2007 to proceed to implement digital signage systems, including its RoninCast® management software, for NewSight’s initial rollout of network installations in 13 large, upscale malls. These network installations will begin in the first half of 2007. In addition, Wireless Ronin will work with NewSight to implement its launch, installation and operation of an initial rollout of a digital signage network in physicians’ offices throughout the U.S., consisting of a waiting room display network to educate patients on medical procedures and provide office information. Wireless Ronin will provide hardware procurement, project management and installation for both the mall and physicians’ office digital signage installations. NewSight also authorized Wireless Ronin to develop software for its patented 3-D platform. Wireless Ronin has not made a projection as to the future revenue expected from this customer relationship.
